## OUR PHILOSOPHY

At Black and Gerngross our first priority is to fully understand our clients' needs so that we can help them achieve their goals. Whether through efficient formation of business entities, superior understanding, development and implementation of contracts, or detailed analysis and advice regarding asset and risk distribution, we successfully guide our clients through the maze of legal issues they confront daily. We provide our clients with a competitive edge in today's marketplace.

Despite the best planning, disputes are inevitable. Effective litigation strategy, as a sword or shield, is necessary to succeed in the modern business environment. We use our diverse experience and recognized expertise to deliver superior litigation results to our clients.

Our litigators develop and implement focused strategies and solutions tailored to the individual needs and objectives of our clients. All of our trial lawyers have at least ten years of litigation experience. This staffing practice gives our clients direct access to seasoned trial lawyers who are knowledgeable about all aspects of their matter. The efficiencies in legal analysis, case and trial preparation and advocacy skills that flow from our approach benefit our clients at every stage of the process. We also recognize that litigation is costly and disruptive, even when amicably resolved. Our litigation strategies take into account that clients are frequently concerned about unpredictable results. That is why we always keep an eye toward identifying and seeking the most cost-effective dispute resolution mechanism that meets our clients' needs.

Whether a client matter involves a transaction or dispute, we leverage the collective experience, multi-disciplinary skills and expertise of our lawyers to achieve superior results.
